Education

École normale supérieure — Paris, France
Mathematics, Computer Science — *Sep. 2025 – Present*

- Currently in 1st year of Master's Degree (equivalent to French M1)
- 1st year (French L3) relevant courses: Probability theory, Statistical Learning, Optimal Transport and Optimization, Functional Analysis, Topology, Complex Analysis, Algebra, Operating Systems, Compilers, Numerical Systems, Algorithms.
- Bachelor's thesis: Conformal prediction and Vapnik-Chervonenkis (VC) dimension in Statistics.

Lycée Louis-le-Grand — Paris, France
Mathematics, Physics, Informatics (MPI)* — *Sep. 2023 – July 2025*

- 2-year undergraduate preparatory classes for French Grandes Écoles (nationwide competitive entrance exams).
- Admitted to École Normale Supérieure (ranked **2nd**) and École Polytechnique (ranked **1st**).

Honors & Awards

International Olympiad in Informatics (IOI) — Online (2021), Yogyakarta (2022), Szeged (2023)
Silver medal (2022, 2023), Contestant (2021) — *2021 – 2023*

International Mathematical Olympiad (IMO) — Chiba, Japan
Bronze medal in 2023 — *July 2023*

Western-European Olympiad in Informatics (WEOI) — Online
Gold medal (1st place) in 2023 — *June 2023*

Experience

I3S Laboratory (CNRS, Université Côte d'Azur) — Sophia Antipolis, France
Undergraduate Research Intern — *June 2026 – July 2026*

- Developed a benchmark for multimodal evolutionary algorithms on test functions having uncountably infinite number of global optima.

Volunteering

France-IOI (French Olympiad in Informatics) — Paris, France / Remote
National team coach — *2024 – Present*

- Designed and tested algorithmic problems for national selection.
- Coached top French high school students for international contests.

Skills & Languages

Languages: French (native), Chinese (fluent), English (fluent)
Programming: C++ (proficient), OCaml, Python
