EDUCATION

École normale supérieure

Mathematics, Computer Science

Paris, France

Sep. 2025 – Present

- Currently in 1st year of Master's Degree (equivalent to French M1)
- 1st year (French L3) relevant courses: Measure Theory & Probability, Functional Analysis, Topology, Algorithms, Statistical Learning, Complex Analysis, Optimal Transport, Algebra, Operating Systems, Compilers, Numerical Systems.
- Bachelor's thesis: Conformal prediction and Vapnik-Chervonenkis (VC) dimension in Statistics.

Lycée Louis-le-Grand

Mathematics, Physics, Informatics (MPI)*

Paris, France

Sep. 2023 – July 2025

- 2-year undergraduate preparatory classes for French Grandes Écoles (nationwide competitive entrance exams).
- Admitted to École Normale Supérieure (ranked **2nd**) and École Polytechnique (ranked **1st**).

HONORS & AWARDS

International Olympiad in Informatics (IOI)

Silver medal (2022, 2023), Contestant (2021)

Online (2021), Yogyakarta (2022), Szeged (2023)

2021 – 2023

International Mathematical Olympiad (IMO)

Bronze medal in 2023

Chiba, Japan

July 2023

Western-European Olympiad in Informatics (WEOI)

Gold medal (1st place) in 2023

Online

June 2023

EXPERIENCE

I3S Laboratory (CNRS, Université Côte d'Azur)

Undergraduate Research Intern

Sophia Antipolis, France

June 2026 – July 2026

- Developed a benchmark for multimodal evolutionary algorithms on test functions having uncountably infinite number of global optima.

VOLUNTEERING

France-IOI (French Olympiad in Informatics)

National team coach

Paris, France / Remote

2024 – Present

- Designed and tested algorithmic problems for national selection.
- Coached top French high school students for international contests.

SKILLS & LANGUAGES

Languages: French (native), Chinese (fluent), English (fluent)

Programming: C++ (proficient), OCaml, Python
